

Outfit 1: Oversized Cardigan w/ print top

I was inspired to recreate this outfit albeit not a direct translation, but using similar elements that I already have in my closet.

Inspiration: A print top to add visual interest and focus away from the oversized cardigan.

What I did: I styled this outfit with a graphic tee (same idea!) and booties (because we have snow!).

Outfit 2: Oversized Cardigan w/ skinny jeans

Inspiration: To balance the proportions of the oversized cardigan, I love how she paired it with skinny jeans. The visual interest of the snake skin shoes carry the eye down and away from the oversized cardigan.

What I did: I styled this outfit similarly with the cardigan + white tee + skinny jeans, but added a colorful scarf for visual impact and kept the shoes simple. I really love how this outfit came together!

Outfit 3: Oversized Cardigan w/ faux leather pants

Inspiration: I never would've thought to pair this oversized cardi with faux leather pants. The white sneakers keep the eye moving all throughout the outfit.

What I did: I love how this outfit looks and will be wearing this as is! The playfulness of the sneakers makes it a versatile outfit for day. I could swap the sneakers for a dressier shoe for night.

Outfit 4: Chunky Sole boots w/ blazer

In finding ways to style my new chunky sole boots, most outfits I saw really played up the edginess of the boots with more edge styling details. I would rather mix the edge of the boots with a tailored piece like a blazer or scarf to align more with my personal style.

Inspiration: I was inspired by this photo to wear a blazer with my chunky sole boots

What I did: I paired an oversized blazer with a more tailored pants to achieve a look that really speaks to my personal style!

Outfit 3: Chunky Sole boots w/ feminine detail

Haha! You might be thinking these outfits look nothing alike! Let me explain my logic here :)

Inspiration: I was inspired by the feminine details of the skirt paired with the edgy boots.

What I did: I don't typically wear skirts and dresses but I do have this more feminine silk top that recreates the same juxtaposed styling in the Pinterest photo. Love how this outfit looks and feels!
